

OPEN ENROLLMENT PERIOD REMINDER

# 2024 Medicare | Mid-South Endoscopy Center

## Medicare open enrollment will take place October 15–December 7, 2023.

Medicare is a health insurance program for people in the U.S. who are 65 or older, people under age 65 with certain disabilities and people of all ages with end-stage renal disease.

Each year, Medicare open enrollment allows new participants to enroll and existing participants to update their plans October 15–December 7.

In addition to traditional Medicare, Medicare Advantage plans are also available. Before enrolling in a Medicare Advantage plan, you should investigate available plans to ensure your preferred providers are included and that the plan meets your individual needs. Should you wish to make a change to Medicare Advantage plan coverage after open enrollment, you may do so from January 1 to March 31 of each year. Any change made to your Medicare Advantage plan will become effective the first day of the following month after the plan processes the requested change.

**MAURY REGIONAL  
HEALTH**

## Mid-South Endoscopy Center participating plans

During open enrollment, please note that Mid-South Endoscopy Center participates in the following
